

# Professional Vehicle Surveillance System

*What's driving you...*

## PR-MNVR300-HY-8

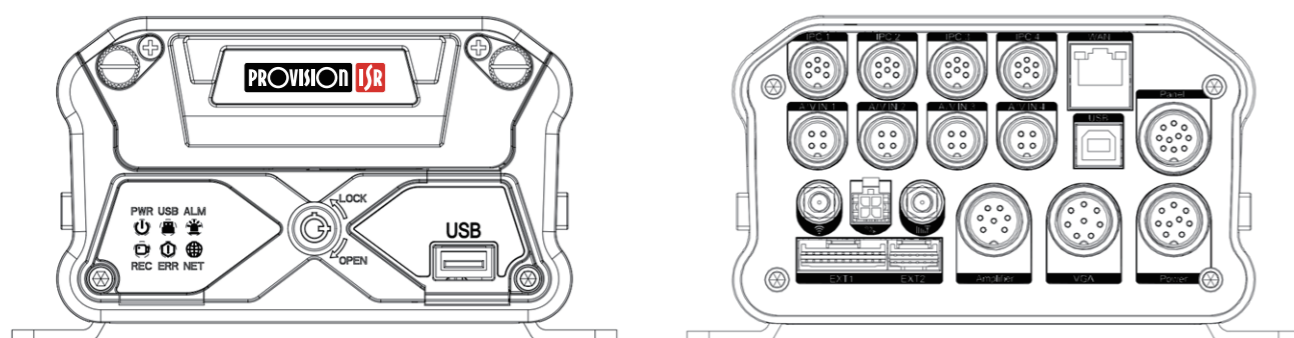

Provision-Isr PR-MNVR300-HY-8 is a functional hybrid Mobile network and digital Video Recorder specially designed for vehicle video surveillance and remote monitoring. It has a high-speed processor and an embedded operating system. The unit uses H.265 compression/ decompression tech., network tech. and GPS.

PR-MNVR300-HY-8 has a superior anti-vibration design, is multi-functional, easy to access, highly reliable and a flexible installation.

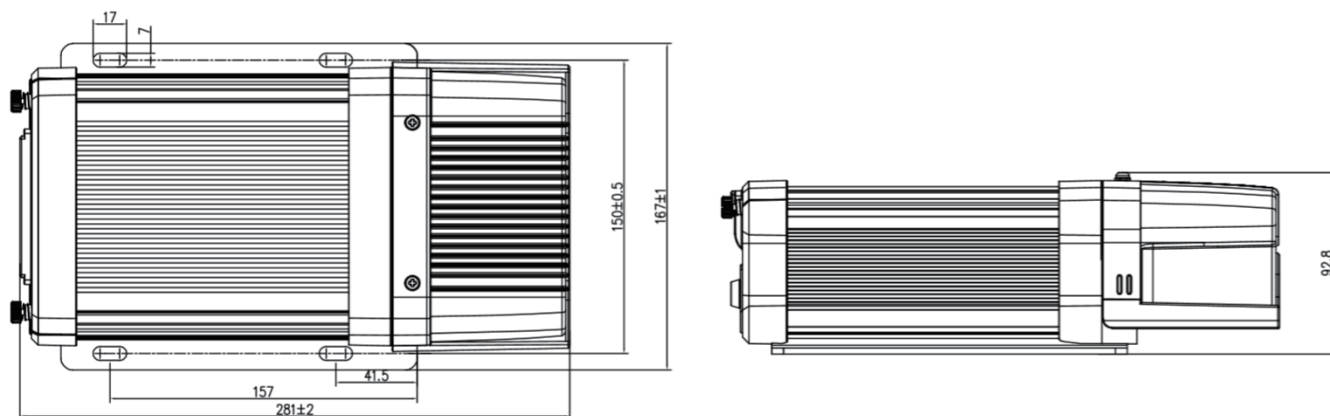

### Main Features:

- Recording and streaming 8 video channels 1080P
- Advanced H.265 video compression technology
- Robust design with high temperature and vibration resistance
- Aviation camera connectors for maximum reliability
- Professional and rich setting interface
- Support WIFI/GPS/4G

### External Interface:

### Dimension Figure:

### Specifications:

	Items	Property
<b>System</b>	CPU	ARM Cortex A7 @Max. 1.3GHz
	Memory	512 MB
	OS	Linux
<b>Function</b>	3G/4G	Support
	WIFI	802.11ac/b/g/n/
	Positioning	Support GPS
	HDD	1*2.5" SATA hard drive, supports heating (optional)
	G-Sensor	built in (positions)
<b>Interface</b>	Video Input	4 AHD channels + 4 IPC channels 4*1080P@15fps+4*1080P@30fps
	Video Output	1 channel CVBS output, 1 channel VGA output
	Audio Input	4 analog channels + 4 digital channels
	Audio Output	1 analog channel
	USB	Front Type-A USB2.0, rear Type-B USB2.0
	SD card	1*SD card slot
	LAN	1*100Mbps
	SIM card	1*SIM card slot
	I/O	8 inputs, 2 outputs
	Amplifier	Inside speaker/outside speaker, Max. supports 2*20W
	Serial interface	2*RS232, 2*RS485
	CAN interface	1*CAN
	Speed pulse	1 channel pulse speed detection
	Mic	External megaphone
Power input	DC 8-36V	
<b>Physical characteristic</b>	Dimensions(L x W x H)	281x167x92.8mm(with bracket and rear cover)
	<b>Operating conditions</b>	Operating temperature
Storage temperature		-40°C-+85°C
